⚠ WARNING

- Observe all governing codes and ordinances during planning and installation. Contact your local building department for further information.
- All appliances must be installed in accordance with the accompanying installation instructions.

Model No.	Approved Raised Vent Model
DRT366S	ERV3615

IMPORTANT:

- Use only approved raised vent model. Model DRT304 is not approved for use with a raised vent.
- Use only raised vent model specified. Raised vent is not compatible with DRT cooktops having a serial number starting with letters “SA.”
